RHINO GLAZE

Ceramic Infused Drying Agent & Protectant

What is RhinoGlaze:

A special combination of drying agent and protectant for vehicle surfaces infused with nano technology and silicones that leaves behind long lasting, deep color protection and incredible gloss. The Rhino system offers the ability to build protection through multiple applications, leaving a silica-rich film behind that helps repel water, dirt, and other pollutants, keeping your car cleaner longer in automatic car wash equipment.

What is Ceramic GUARD Technology?

A premium long lasting surface coating and UV protectant for vehicle surfaces using nano technology. This advanced coating bonds with the vehicles surface to provide long lasting protection. Surfaces have a deep reflective shine that make colors deep and vibrant.
