Since the mid-1980s Synthetic Labs has been manufacturing innovative, cutting edge car wash products, becoming a respected and leader in the industry. Synthetic Labs utilizes the latest formulation technologies and are continually improving product performance, increasing cost efficiency and maximizing our clients profits by reducing service related expenses. Economically priced, coupled with high performance, our **360 PRODUCTS** Line of car wash solutions is the result of this experience.

**360 PRODUCTS** professional car wash line includes products for every aspect of the industry from Full Service to Automatic Car Wash, to Manual Wash Systems; all are formulated and packaged to Synthetic Labs strict quality standards, as well as meeting the requirements and specifications of its partners. Synthetic Labs partners benefit from product support, marketing assistance, and technical sales assistance, provided by our in house full service team. Synthetic Labs high standards are reflected in our **360 PRODUCTS** high performance and low cost complete line of products.

Interested In  
**BUILDING YOUR  
OWN COMPANY  
BRAND?**

Its easy.  
Let us do **ALL** the work for you.

# Interested In Building Your Own Company Brand?

If you decide that you want to enhance your own company brand and build equity in what you have worked hard to build, consider a private label program.

## MARKETING & COMPLIANCE

### Catalogs

Small or large, build a catalog of your products customized for your brand.

### Tech Sheets

Make sure your customers know about your products and how to use them.

### SDS Sheets

We will register your company & SDS to keep you and your customers in compliance for you.

### Product Labels

Each label will market your brand while keeping you in compliance with safety standards

### PRIVATE LABEL PROGRAM:

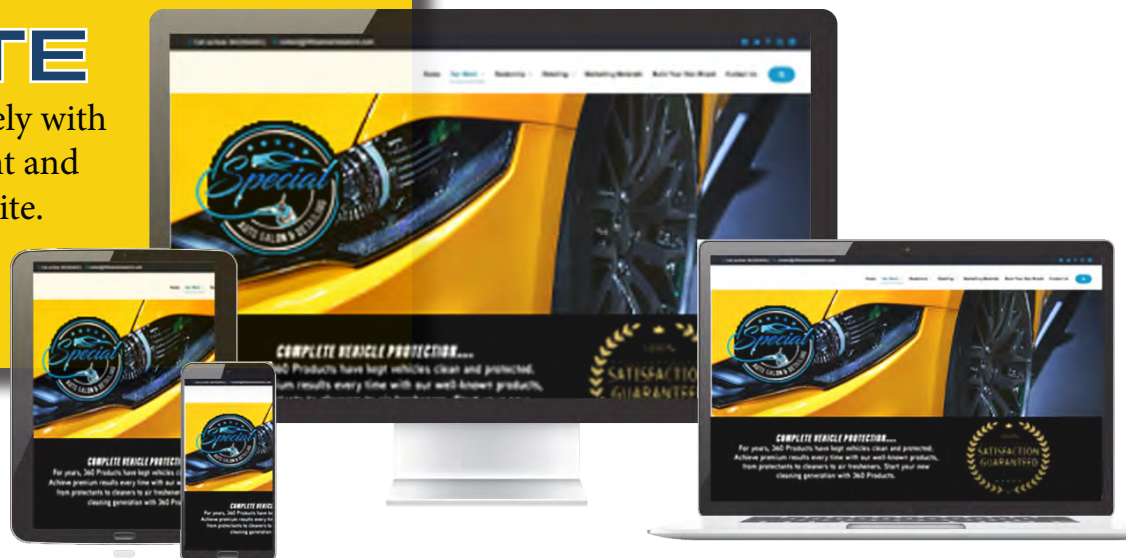

A customer has only one chance to impress! We will work with you to develop and refine your own brand by utilizing picture quality labels and professional marketing material. All you need to do is provide your logo, place a minimum order, and we will do the rest. All of our labels are printed and designed in house by our label and production department.

As a private label customer you also have access to:

- Any of our products are available for formulation under your own brand name.
- Customizing of any our products is available. We can change colors, perfumes, foam levels, or almost any other factors to meet your specific needs.
- Complete design process. If you have a logo we will design everything else for you with our in-house design team. Don't have a logo, no worries, we will design one for you.
- Our in-house regulatory team will take care of making sure your company is registered with the appropriate safety companies, create Safety Data Sheets with your company name on them, we submit all Safety Data Sheets to the appropriate regulatory and safety companies on your behalf.

## WEBSITE

Our team will work closely with yours to build a vibrant and brand building website.

# HIGH PH PRESOAKS

## Advantage

### Premium High Foaming Presoak

A fast rinsing alkaline presoak detergent that will provide quick and effective results. Starts breaking down road film on contact. Contains chelating agents and emulsifier for hard water applications. Specially formulated for operators who need a one step fast acting product. Also great for self serve prep guns.

**For use in:** Automated Rollover

## Breakdown

### Premium Alkaline Presoak Plus Sheen Enhancers

Superior alkaline detergent designed specifically for use as the high pH presoak or detergent in the 2-step low pH/high pH wash process. Leaves a streak free surface. Excellent for use in both frictionless in-bay automatics, and friction assisted conveyor car washes. Formulated with ecco rinse technology.

**For use in:** Automated Rollover, Tunnel, Wash Systems

pH	14
Dilution	1:120-1:300
Color	Yellow
Available containers	Part Number
55 Gallon Drum	200846215555
30 Gallon Drum	200846213030
15 Gallon Drum	200846211515
5 Gallon Pail	200846215640
2.5 Gallon Container	200846214128

## Mach One

### Hard Water High Foaming Presoak

A special hard water alkaline high foaming liquid body shampoo that is designed to penetrate road film in friction wash applications. This product is a stronger cleaner and foamier than most alkaline detergents allowing the product to carry through friction and touchless systems.

**For use in:** Automated Rollover, Tunnel, Manual Wash Systems

15 Gallon Drum	200846211515
5 Gallon Pail	200846215640
2.5 Gallon Container	200846214128

## Supreme

### Deep Cleaning Non Hazardous Presoak

A non hazardous presoak detergent that starts breaking down road film on contact. Designed for high and low pressure application. Contains chelating agents for hard water applications. Formulated for safe use on all OEM surfaces.

**For use in: Automated Rollover, Manual Wash Systems**

pH	14
Dilution	1:120-1:200
Color	Orange
Available containers	Part Number
55 Gallon Drum	200810325555
30 Gallon Drum	200810323030
15 Gallon Drum	200810321515
5 Gallon Pail	200810325640
2.5 Gallon Container	200810324128

## HF Presoak

### Premium High Foaming Neutral Presoak

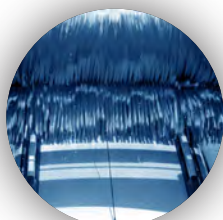

Neutral foaming liquid presoak that is designed to be used in friction and manual applications. This product is a neutral strength cleaner used to loosen road film in prep gun and presoak applications. Its neutral properties make it a safe product to apply to vehicles in any conditions.

**For use in: Automated Rollover, Tunnel, Manual Wash Systems**

pH	7
Dilution	1:200-1:400
Color	Green
Available containers	Part Number
55 Gallon Drum	200815235555
30 Gallon Drum	200815233030
15 Gallon Drum	200815231515
5 Gallon Pail	200815235640
2.5 Gallon Container	200815234128

We have found that when using a Low pH / High pH two-step application process, the best results are when the Low pH product is applied first followed by the Alkaline Presoak with double the strength of the Low pH product. This is not a rule, however, some operators have found they get the best results by applying the Alkaline Presoak first.

When both Alkaline and Acidic Presoaks are applied to the same surface, there is neutralization that takes place. When one is applied, it combines with the dirt and then the second product is applied reacting with both the opposite presoak and the dirt, increasing the removal of dirt. The neutralization reaction in this instance is a benefit not a drawback.

**ecco rinse technology**  
rinse less, use less

As global temperatures continue to warm and droughts increase in number and severity, water is becoming an even more precious and vital resource. Water conservation, in turn, is increasing in importance. Everyday activities, such as washing our cars, now present us with ethical dilemmas as we consider their impact on our environment and natural resources.

With the **360 PRODUCTS** Line of pressure wash detergents, we look at water conservation as it pertains to evolving technologies, the growing shift to recycling wash water and the regulation of commercial washing in the United States.

Water is the single most important component for washing, period. You can wash a surface without pressure wands and automated machines, but you simply cannot wash cars without water.

By reducing your water consumption, you also reduce your operating costs and waste, which is a direct increase in profits. (We all like that!) The **360 PRODUCTS** line of products with ecco rinse technology can help reduce water and sewer consumption and subsequently increase your profit margin.

What is **ecco rinse technology**?

A specially formulated blend of detergents to simplify and expedite the rinsing process after chemicals have been applied. With specially chosen detergents, produces flash foam quickly then begin defoaming quickly requiring lower amounts of water to rinse, resulting in less wastewater and lower water bills.

# LOW PH PRESOAKS

## Venture

### High Foaming High Acid Presoak

A heavy duty non HF acid based presoak for use in automatic wash system. Penetrates deep into dirt and road film, instantly breaking the bond between dirt and the surface. High foaming and easier neutralization for better cleaning and presentation.

**For use in: Automated Rollover, Tunnel Wash Systems**

pH	1
Dilution	1:200-1:400
Color	Purple
Available containers	Part Number
55 Gallon Drum	200846205555
30 Gallon Drum	200846203030
15 Gallon Drum	200846201515
5 Gallon Pail	200846205640
2.5 Gallon Container	200846204128

## Formula 120

### Low pH Acid Presoak

A low pH acid cleaner for use in automatic wash system. Penetrates deep into dirt and road film, dissolving the bond between dirt and the surface. Will help remove rubber and oil from road film, making the second step more effective in leaving a vehicle road film and dirt free without scrubbing.

**For use in: Automated Rollover, Tunnel Wash Systems**

pH	1
Dilution	1:120-1:200

5 Gallon Pail	200846475640
2.5 Gallon Container	200846474128

## Lubricity

### Lubricating Detergent For Tunnel Systems

A vibrant high foaming liquid detergent that provides lubrication and protection to any brush or cloth system to help eliminate scratching and friction. Contains special glycols that keep brushes from sticking or over rubbing surfaces. The high foam is stable and very easy rinsing.

**For use in: Tunnel Wash**

pH	7-8
Dilution	1:150-1:400
Color	Multiple
Available containers	Part Number
55 Gallon Drum	200846505555
30 Gallon Drum	200846503030
15 Gallon Drum	200846501515
5 Gallon Pail	200846505640
2.5 Gallon Container	200846504128

# POLISHES & CONDITIONERS

## XT-2

### Premium Triple Foam Conditioner

A premium high foaming triple foam conditioner. Provides a deep vibrant wet foam that rinses quickly and easily. PH balanced for easy use in any wash system on both brushes and cloth. Contains special lubricating agents to maintain optimal performance of brushes.

**For use in:** Automated Rollover, Tunnel Wash Systems

**Fragrances:** Cherry Blossom, Melon Fields, Grape Vine, Green Apple, Pina Colada, Bubble Gum

pH	3-4
Dilution	1:00-1:250
Color	Multiple
Available containers	Part Number
55 Gallon Drum	200846355555
30 Gallon Drum	200846353030
15 Gallon Drum	200846351515
5 Gallon Pail	200846355640
2.5 Gallon Container	200846354128

## Xtreme

### High Foaming Triple Foam Polish

A premium high foaming triple foam polish. Deep vibrant foam hangs on vehicle for optimal visual appearance then rinses quickly and easily. Contains special lubricating agents and siliconized polymers to help maintain optimal performance of brushes while leaving behind surface protectants.

**For use in:** Automated Rollover, Tunnel Wash Systems

**Fragrances:** Cherry Blossom, Melon Fields, Grape Vine, Green Apple, Pina Colada, Bubble Gum

pH	3-4
Dilution	1:100-1:250
Color	Multiple
Available containers	Part Number
55 Gallon Drum	200846335555
30 Gallon Drum	200846333030
15 Gallon Drum	200846331515
5 Gallon Pail	200846335640
2.5 Gallon Container	200846334128

## TriFoam

### High Foaming Triple Foam Conditioner

A high foaming low pH triple foam conditioner. Provides a deep vibrant wet foam that rinses quickly and easily. Contains special lubricating agents to help maintain optimal performance of brushes.

**For use in:** Automated Rollover, Tunnel Wash Systems

**Fragrances:** Cherry Blossom, Melon Fields

pH	3-4
Dilution	1:100-1:200

## ALL NEW

# SUPER DRY

## Super Concentrated Drying & Spray Wax

Part Number: 4732

An all new highly concentrated drying agent & spray wax.

Super Dry provides superior drying at an economical dose. Vehicle surfaces will be left water and spot free.

Watch the water bead off immediately.

# COMPLETE SURFACE PROTECTANTS

## Luster

### Complete Surface Protectant

A premium drying agent and surface protectant in one product. Contains special polymers, builders, and silicized carnauba that not only bead water from the surface during the drying cycle, but will provide protection to glass and surfaces after the vehicle has dried. Contains UV protectants for added protection.

**For use in:** Automated Rollover, Tunnel Wash Systems

pH	7
Dilution	1:250-1:500
Color	Multiple
Available containers	Part Number
55 Gallon Drum	200846605555
30 Gallon Drum	200846603030

# 360 PRODUCTS CERAMICS

Total Long Lasting Surface Protection For Vehicles

- Magnified Shine
- Premier Water Beading
- UV Protection

Formulated with Nano  
Technology Including...  
**SiO<sub>2</sub>, TiO<sub>2</sub>, Graphene**

## *What is Ceramic GUARD Technology?*

A premium long lasting surface coating and UV protectant for vehicle surfaces using nano technology. This advanced coating bonds with the vehicles surface to provide long lasting protection. Surfaces have a deep reflective shine that make colors deep and vibrant.

**M**ake the color on the vehicle deeper and more vibrant for months.

**S**eals surfaces providing water beading and hydrophobic surfaces.

**K**eeps glass and windshields clean and protects for weeks after application.

Part Number: 4766

# RhinoCoat

CERAMIC TOTAL BODY PROTECTANT

TOTAL PROTECTION

**PROTECTION LASTS FOR MONTHS**

### *What is RhinoCoat?*

A Total Surface Protectant for vehicle surfaces infused with nano technology and siloxanes that leaves behind long lasting, deep color protection and incredible gloss. RhinoCoat offers a premium level of protection alone, leaving a silica-rich film behind that helps repel water, dirt, and other pollutants, keeping your car cleaner longer in automatic car wash equipment. Use it on a non-coated car to add water beading properties, or on a coated car to revitalize the existing coating and protection.

Part Number: 4770

## RHINO F3

### VIBRANT TRIPLE FOAM

Rhino F3 offers all of the benefits of the extreme polish but is infused with ceramic nano-technology. The polish coats your vehicle in foam while providing a silky smooth shiny finish. Adds UV protection and enhanced drying characteristics. Builds shine with every application.

**pH=4 | Dilution=200-400:1 | Color=Multiple**

Part Number: 4771

## RHINO FUSION

### HIGH FOAMING SURFACE PROTECTANT

Rhino Fusion is a high foaming protectant infused with cleaning properties and ceramic guard technology to provide superior durability, more clarity and it gives the vehicle a smooth, silky surface. For use in lava foam applicators.

**pH=7 | Dilution=150-300:1 | Color=Multiple**

Part Number: 4772

## RHINO GLAZE

### COMPLETE SURFACE PROTECTANT

Rhino Glaze is a multi level formulation combining drying, beading, and protection. Leaves a shiny, silky look and feel to the exterior. It creates a deeper, better shine and strong, durable finish. Ultra can be used in the tunnel as a drying agent or as a stand-alone product.

**pH=7 | Dilution=300-600:1 | Color=Blue**

INFUSED  
WITH THE POWER OF

# GRAPHENE

## THE GRAPHENE ADVANTAGE:

The coating contains a black graphene oxide powder. This component enhances the surface underneath, rather than just adding a glossy layer on top. This means that while it will add gloss and depth to a glossy surface, it will not do so to a matte surface. Therefore, it can be used on matte surfaces without affecting the finish. Graphene's thermal properties allow it to be applied in direct sunlight easily and without the worry of high spots, streaking, or a difficult buffing process. These same thermal properties also help prevent hard water spots from occurring. The graphene layer absorbs the heat, keeping the paint underneath cool, helping to prevent the hard water spots from etching into the clear coat. If water spots do occur, they should easily be wiped off. It is safe and effective on various surfaces, including paint, glass, wheels, plastic, and metal.

**Anti-corrosion:** Due to the honeycomb like structure, Graphene is the most impermeable material ever found, this acts as a filter to humidity and salt, providing a protective barrier over the substrate, at higher levels than a non-Graphene coating.

**Flexibility:** Graphene is also the most flexible and pliable material in the world, which allows the coating to bend and mold to the substrate, instead of being rigid leading to cracking and failures.

**Anti-Friction:** Due to the thickness or lack there of, and how layers of Graphene stack and move against each other, we are able to experience less friction than traditional coatings.

**Durability:** The strongest material known even against UV, the make-up of Graphene binds with traditional coatings to enhance overall stability and durability the coating. Increasing life-span and reducing down-time and failures.

## GRAPHENE INFUSED PRODUCTS

### What is 778 RhinoPro:

RhinoPro 77 Protectant uses the power of Graphene Oxide based to provide a coating that will provide a high level of protection longer than Ceramic protectants. With a continued focus on ceramic-based cleaners and coatings the car wash in graphene based products provide a high level of protection, so automobile enthusiasts have little choice but to take notice if they want to keep their cars looking sharp.

**pH=7 | Dilution=400-600:1 | Color=Clear**

### What is Rhino Tire Dressing:

Rhino Tire Shine uses the power of Graphene Oxide based to provide a special coating to rubber that will provide a longer level of gloss and UV protection than traditional tire dressing. With a continued focus on ceramic-based cleaners and coatings the car wash in graphene based products provide a high level of protection, so automobile enthusiasts have little choice but to take notice if they want to keep their cars looking sharp.

# BioGuard

## Bio Enzymatic Odor Control For Car Wash Operators

Water-soluble concentrated formula contains high levels of fragrance, encapsulators and bacteria for 24-hour odor control. Billions of select spore-form bacteria completely eliminate odors at their source by digesting odor-causing molecules. Fresh fragrance leaves the area smelling fresh and clean. Will also breakdown oils in reclaim pits.

- ✓ **Combats & Destroys Odors**
- ✓ **Emulsify s & "Eats" Oils**
- ✓ **Leaves Areas Smelling Fresh**
- ✓ **Continues To Work Long After Application**
